GUARANTEE AND EXPECTATIONS

At Score Plus, we help students prepare for the ACT so they can perform optimally on test day. Students and parents often ask how much score improvement they can expect. This is a question with no simple answer. ACT prep is one of several factors that can affect scores. Other factors include:

- 1. How your student feels on test day.** Sports, part-time jobs, and other activities can be very demanding. Students who are physically or mentally tired the day of a test may not perform optimally. Unexpected illness can also impact a student's performance.
- 2. Your student's study habits.** We will review critical concepts and discuss test-taking tips and strategies during class. However, students should also practice applying what they have learned by completing practice tests and studying at home.
- 3. The actual questions that appear on the test.** The ACT is predictable, but only to an extent. We will show your student what to expect and how to approach a variety of questions. However, it is impossible to know the exact questions that will appear on any test.

Because these factors are beyond our control, we do not offer a score improvement guarantee. However, we do promise to do the following:

- ✓ Provide your student with engaging, high-quality instruction.
- ✓ Help your student identify what they know and what they still need to learn.
- ✓ Teach your student a variety of test-taking tips and strategies.
- ✓ Follow up with you by phone or email to discuss your student's test results.
- ✓ Provide a free review session before your student's next test if their scores do not improve.

Parents, we ask that you assist us by doing the following:

- ✓ Set realistic expectations.
- ✓ Ensure your student arrives for class on time and ready to learn.
- ✓ Ensure your student completes all assigned homework.
- ✓ Be available to communicate by phone or email.
- ✓ Be aware of test registration deadlines and scholarship deadlines that affect your student.
